

Shortened version of the CPF file, including only 3 parcelshops instead of +43000

The header, definitions lines and end line will be the same in the complete CPF file, it will however include many more repetitions of PUDOGENERALINFO, PUDOADDRESS, PUDOHOOURS, PUDODOWNTIME and PUDODOWNTIMELINE. One set for each parcelshop. *(Below is an extract of the file from 21/02/2020)*

- This parcelshop is always a valid selection.
- One day later on it may announce a closing period of which we don't know yet.
 - If so, with a following daily update, this announced downtime will be in the CPF file.
More specific: a PUDODOWNTIMELINE will be added to the parcelshop (example 2 & 3)

Example 2: Shop with forecasted closure 20/02/2020 until 21/02/2020 (2 days)
